

**LEADERS IN RESCUE & RACE CRAFT
FOR OVER 70 YEARS**

2026/27 SLS CORE RANGE CATALOGUE

WWW.BENNETTSURF.COM

For over 70 years, Bennett Surf has been at the heart of Surf Life Saving.

From local surf clubs to professional lifeguard services, generations have trusted Bennett equipment in the moments that matter most. That trust has been earned through decades of innovation, craftsmanship and an unwavering commitment to performance.

As a family-owned Australian business, we remain as passionate about Surf Life Saving today as we were in 1956. We continue to work closely with clubs, athletes, volunteers and lifeguards to develop equipment that performs in real conditions and stands up to the demands of the ocean.

To the clubs and members who have trusted Bennett over the past seven decades, thank you. Your support has helped make Bennett one of the most recognised and respected names in rescue and race craft worldwide.

70 years on, our commitment remains unchanged: build the best equipment possible and never stop improving it.

Greg "Tank" Bennett
Director
Bennett Surf

RACE

EVO- R RACE MALS

The fastest race mal we've ever built.

Developed through years of athlete feedback, testing and refinement, the EVO-R represents the next generation of Bennett race craft. Every design detail has been engineered for one purpose: speed. The result is a lighter, faster and more responsive board that delivers confidence in all conditions.

Built with our proven Robustlite construction, the EVO-R combines elite-level performance with the durability clubs have trusted for decades.

- Length - 10'6"
- Weight - from 7.6kg including fin
- Construction - Robustlite tech (pvc foam sandwich)
- Available in 5 weight capacities between 50kg - 100kg.
- Stock colourways and custom designs available

SOFT NIPPER

SOFTPRO RANGE

The trusted choice of Surf Life Saving clubs for over 15 years.

Designed with safety, durability and performance in mind, SoftPro boards provide the confidence young athletes need to develop their skills and paddle fast.

Available in a range of sizes, volumes, and colourways that kids love – SoftPro caters to every stage of the Nipper journey, from first-time paddlers through to emerging competitors. Trusted by clubs & built to last.

Reduced Volume – 6' length (sub 30kg paddlers)

Nugget – 6' length, hybrid flat deck soft board with handles

NEW! Lite – 6'6 length (25kg – 40kg paddlers)

Extra Volume – 6'6 length (40kg + paddlers)

HARD NIPPER

EVO - N NIPPER

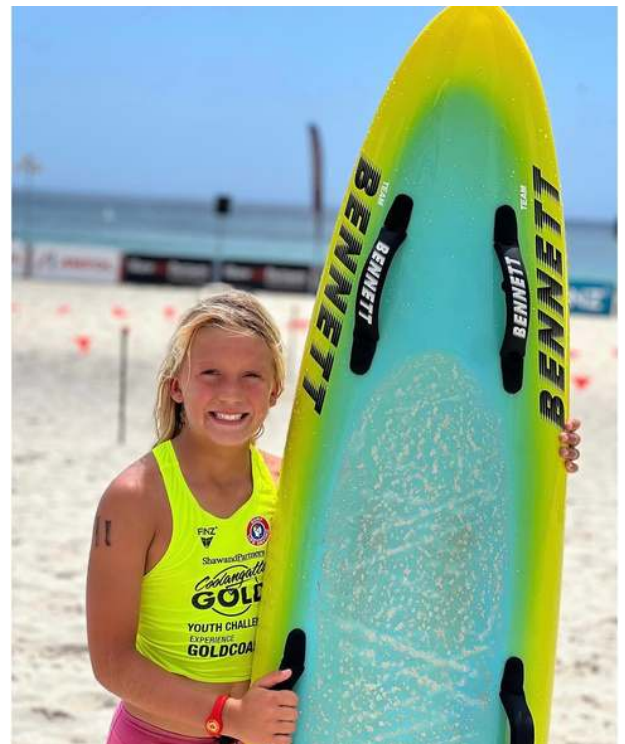

Developed through extensive testing and refinement, the EVO-N represents the next evolution in Bennett Nipper design.

Engineered to be lighter, stronger and faster, the EVO-N delivers the performance young athletes need to build confidence and gain a competitive edge.

Now available in our advanced Robustlite construction, the EVO-N combines race-proven performance with the durability clubs have come to expect from Bennett.

The future of Nipper racing is here.

- Length - 6'6
- Weight - from 4.5kg including fin
- Construction - Robustlite tech (pvc foam sandwich)
- Available in 35kg - 45kg, 45kg - 55kg and 55kg - 65kg weight capacities
- Available in stock colourways & custom sprays

RESCUE

THE WORLD'S MOST TRUSTED RESCUE BOARD

For over 70 years, Bennett has been setting the standard in rescue craft. Trusted by surf clubs, lifeguards and rescue services around the world, Bennett Rescue Boards have earned their reputation through decades of proven performance in real rescue situations. Developed through continual innovation and refinement, our rescue boards deliver the speed, stability and durability required when every second counts.

Available in both Hard Robustlite and Soft Tech constructions, every Bennett Rescue Board is Surf Life Saving approved and built to withstand the demands of frontline rescue operations.

- Length – 8'10 & 10'6 models available
- Custom designs and artwork available by request

PADDLE

50 YEARS OF PADDLE DESIGN, REFINED.

The Tank Series is the culmination of more than five decades of paddle design, athlete feedback and on-water testing.

Engineered to maximise power transfer while reducing fatigue, every detail has been refined to deliver the perfect balance of performance, control and durability.

BUILT LIKE A TANK. THIS IS THE NEXT EVOLUTION OF BENNETT PADDLES.

Available in two blade profiles:

- Model A – Traditional Teardrop
- Model B – Twisted Teardrop

Blade sizes include 630, 670, 700, 720, 740 & 760 sqcm

Shaft options include multiple colours in a 33% carbon surf layup.

60% carbon shaft options also available for kayak use.

PRONE

STONE COLD 12'

WORLD-CLASS ATHLETE. WORLD-CLASS DESIGN.

When World Champion Harry Stone approached Tom Bennett with a vision to create the ultimate 12' paddleboard, the brief was simple: build the fastest, most versatile board possible.

The result is the Stone Cold 12'. A board developed through extensive design, testing and refinement to deliver exceptional speed, glide and control in all ocean conditions.

The fastest prone paddleboard on the market. Built by Bennett.

- Length - 12'
- Weight - 8.5kg aprox.
- Volume - 197.3L
- Construction - Robustlite tech (pvc foam sandwich)

70 YEARS OF TRUST.
70 YEARS OF INNOVATION.
70 YEARS OF PERFORMANCE.

FOR GENERATIONS, BENNETT HAS BEEN TRUSTED BY SURF CLUBS, LIFEGUARDS AND ATHLETES
TO DELIVER EQUIPMENT THAT PERFORMS WHEN IT MATTERS MOST.

TODAY, THAT COMMITMENT REMAINS UNCHANGED.
